Discharge Summary

Unsigned

DIS

Report Status :

Unsigned

ADMISSION DATE :

9/14/93

DISCHARGE DATE :

9/15/93

CHIEF COMPLAINT :

left axillary node dissection , status post breast carcinoma .

HISTORY OF PRESENT ILLNESS :

Patient is a 49 year old previously healthy female , who was diagnosed in June , 1992 , with a breast carcinoma , after she presented with some breast discomfort on the left side .

She underwent a wide resection of a left breast mass by Dr. Ausguall on 8/17/93 .

Pathology of this resection revealed a Grade III / III infiltrating ductal carcinoma .

She now presents for left axillary node dissection , to complete her staging .

She has no complaints at the time of presentation .

REVIEW OF SYSTEMS :

noncontributory , her last menstrual period was regular , and last week .

MEDICATIONS ON ADMISSION :

:w

:q

none .

PAST MEDICAL HISTORY :

Noncontributory .

ALLERGIES :

no known drug allergies .

SOCIAL HISTORY :

Denies cigarette , or alcohol use , she is married and has one child .
