SMUTHPIERNACKRHALT , IECIFA S.
668-10-81-1 E00
Room :
46D-880
Service :
OSS
DISCHARGE PATIENT ON :
06/26/04 AT 10:00 AM
CONTINGENT UPON
Not Applicable
WILL D / C ORDER BE USED AS THE D / C SUMMARY :
YES
Attending :
CHOL , TA GERRENO , M.D.
DISPOSITION :
Home
DISCHARGE MEDICATIONS :
COLACE (DOCUSATE SODIUM) 100 MG PO BID MOTRIN (IBUPROFEN) 600 MG PO Q8H
Food / Drug Interaction Instruction
Take with food DILAUDID (HYDROMORPHONE HCL) 6 MG PO Q3H PRN Pain
DIET :
House / Low chol / low sat. fat
ACTIVITY :
Walking as tolerated
Lift restrictions :
Do not lift greater than 5 pounds
FOLLOW UP APPOINTMENT (S) :
Dr. Chol 150-512-4256 1-2 weeks ,
ALLERGY :
NKA ADMIT DIAGNOSIS :
s / p Laparotomy , TAH , BSO , resection uterine mass
PRINCIPAL DISCHARGE DIAGNOSIS ;
Responsible After Study for Causing Admission) s / p laparotomy TAHBSO resection uterine mass
OTHER DIAGNOSIS ;
Conditions , Infections , Complications , affecting Treatment / Stay
none
OPERATIONS AND PROCEDURES :
06/21/04 CHOL , TA GERRENO , M.D. RESECTION ABD .
TUMOR SUPRACERVICAL HYSTERECTOMY , BSO
OTHER TREATMENTS / PROCEDURES (NOT IN O.R.)
none
BRIEF RESUME OF HOSPITAL COURSE :
Pt is a 42-year-old woman who was diagnosed with an intraabdominal mass .
Pelvic ultrasound suggested that she actually had two separate masses possibly of uterine origin .
An image-guided biopsy confirmed that this was a smooth muscle neoplasm .
Pt underwent procedure without complication .

Post-operatively , pain was well controlled with epidural , pt ambulated with minimal assistance , and tolerated clear liquids by POD1 .

Pt passed flatus POD3 and was started on oral analgesia , full diet , and foley was removed without difficulty .

Pt initially had difficulty transitioning to oral analgesia but achieved better pain control once regimen was optimized .

Pt was voiding , ambulating and eating without difficulty therefore on POD5 she was discharged home in stable condition with plans to follow up with Dr. Chol in 1-2 weeks .

ADDITIONAL COMMENTS :

If fevers , chills , nausea , vomiting , diarrhea , increasing abdominal pain / distention , vaginal bleeding , mass in vagina , increasing redness / swelling/dischARGE from incision , please call Dr. Chol 's office or proceed to ER for evaluation .

Please do not drink alcohol or drive while taking narcotics .

OK to shower but do not scrub the incision or submerge in water until after follow up appointment .

No heavy lifting or strenuous exercise until after follow up .

DISCHARGE CONDITION :

Stable

TO DO / PLAN :

Follow up Dr. Chol in 1-2 weeks

No dictated summary
